

WORLD HEADQUARTERS • BENTON HARBOR, MICHIGAN 49022-2692

**Dear Valued Customer:**

Dryer door switch part number W10318609 is no longer available and has been on backorder. Production did a digit change to the new switch W10350906 which has a different footprint and required a new front panel.

In order to solve this backorder issue service engineering has created kits that correspond to the models that used the old switch and old front panel. These kits will contain the new switch W10350906, the new version front panel, and technician instructions W10874318.

Please direct the customer to the correct kit number by locating the panel switch kit that corresponds to the customers model number listed below.

**NOTE:** If the customers model is not found on this letter then unfortunately we do not currently have a solution.

**Regards,**

**Whirlpool Corporation Consumer and Appliance Care**
